Ward, Hà Đông Town, Hà Nội

☎ 0329433339

## SUMMARY

- Having a passion for information technology in general and web programming in particular, I always have a spirit of learning, researching, exploring, and being creative in my work.
- Objective: To become a seasoned and versatile full stack developer.
- Skills: Experienced in front-end coding (Reactjs/Nextjs), capable of back-end coding (Nodejs/Nestjs)

## WORKING EXPERIENCE

**Company: CodeLovers** 05/2023 - 06/2024

**Position: Front-end Developer**

- Develop and design websites according to the project's design.
- Write front-end code using the Reactjs framework combined with TypeScript, utilizing supporting libraries such as Tailwind, Ant Design
- Participate in fixing back-end bugs, drawing ERD diagrams, configuring the database.
- Maintain, fix bugs, and update project changes

## PROJECT

**Furusato Symons** 05/2023 - 09/2023
